

 ou  → resistor

 → capacitor

 ou  → capacitor eletrolítico

 ou  → diodo

 ou  → led - diodo emissor de luz

 → capacitor variável

 → resistor variável

 → resistor variável
(potenciômetro)

 → resistor variável
(trimpot)

 → transistor bipolar NPN

 → transistor bipolar PNP

→ Fotodiodo

ou

→ Foto transistor

ou

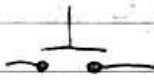

→ diodo ZENER

→ chave Liga-desliga

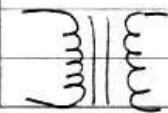

ou

→ push-button normalmente aberto.

→ push-button normalmente fechado.

→ transformador com núcleo de ferro.

→ transformador com núcleo de ferrite.

→ transformador com núcleo de ferrite ajustável.

→ capacitor variável.
Tipo trimmer.

ou

→ varistor

→ cristal oscilador

→ bobina com núcleo de ferro

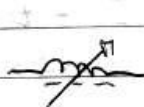

→ bobina com núcleo de ar.

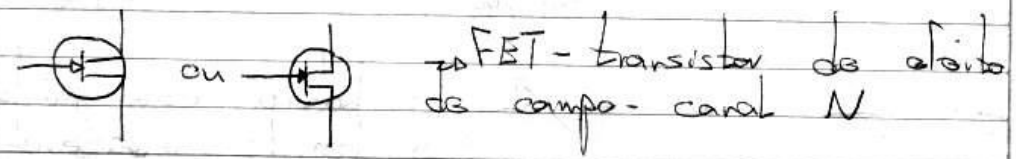

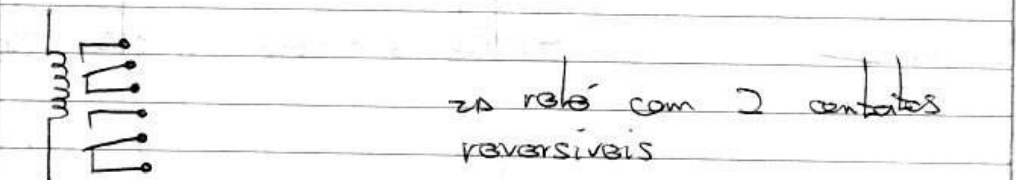

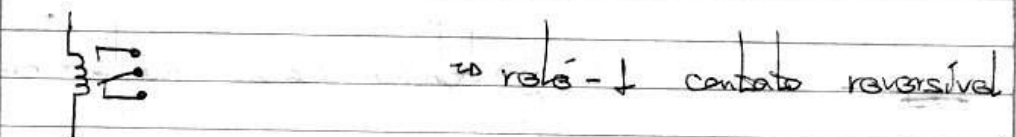

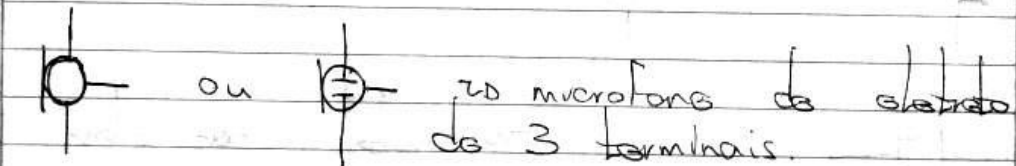

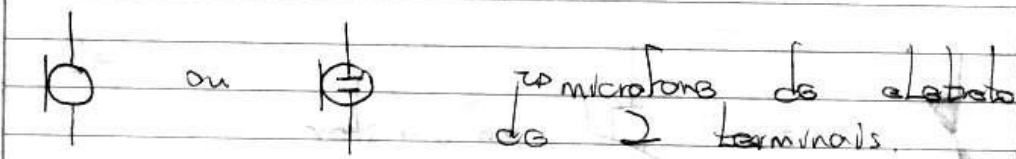

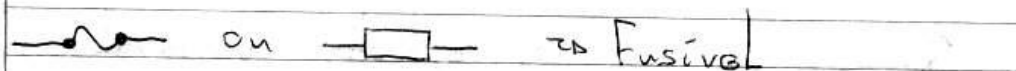

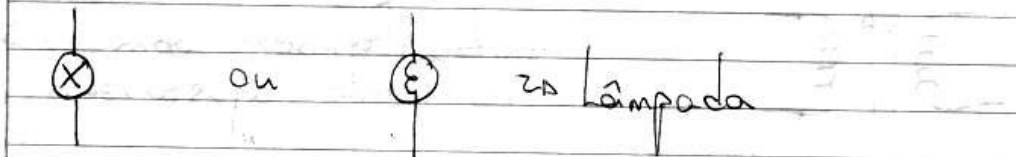

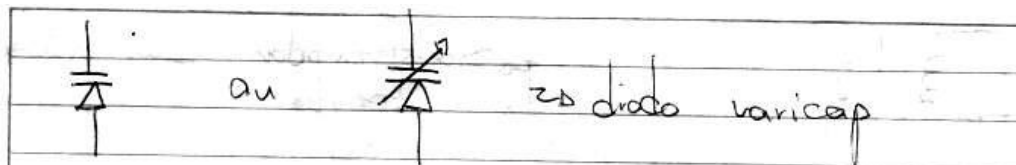

→ bobina com núcleo de Ferrite.

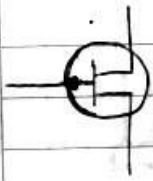

ou

→ bobina com núcleo de ferrite ajustável.

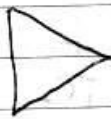

20 transistor FET canal P

20 transistor com dissipador
(Linha pontilhada)

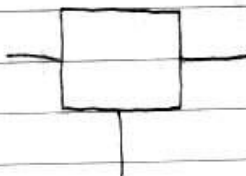

20 representação genérica
para amplificadores.

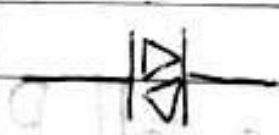

20 SCR - retificador controlado
de Silício. Conduz em
apenas um sentido

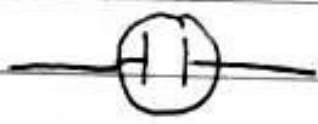

20 TRIAC - Conduz nos
dois sentidos.

20 representação comum
para reguladores de tensão
de 3 terminais.

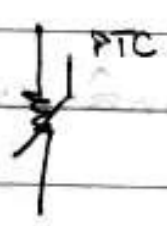

~> diac

~> lâmpada neon

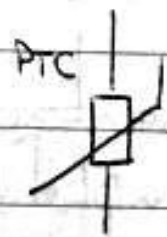

~> Antena

PTC

ou

PTC

~> simbologia usada para PTC ou NTC

NTC

ou

NTC

~> simbologia para PTC ou NTC
